

# Marble Run

## ADD-ON KIT

**20 pieces + 2 marbles**  
Includes three slide connectors, a waterwheel connector, a U-turn slide, an S-shaped connector, a marble maze, and a sturdy base for building even taller configurations.  
**Ages 4 to 12**

This set is designed to work with the MindWare Marble Run, giving you even more building possibilities and fast roller-coaster action!

Each piece perfectly fits with each other and those in the master set. Assembly is easy: simply slide each cylinder end into the next piece. If your column gets too tall, you might want to brace it with a second column attached by a slide connector or use the blue, broad-footed base included in this set.
