

Venn Perplexors

The Story: California

In California the 24 students visited the world famous San Diego Zoo. Afterwards they argued about which were the group's most favorite animals. Everybody voted for his/her top three choices. Pandas, seals, and chimpanzees got the most votes.

The Clues

- 5/6 of the group voted for pandas.
- The seals got 3/4 as many votes as the pandas.
- Half of the group voted for both pandas and seals.
- One third of those voting for seals also voted for the other 2 animals.
- One fourth of the group voted for both seals and chimpanzees.
- Half of those voting for pandas also voted for chimpanzees.
- Chimpanzees got 4 fewer votes than seals.

How many voted for none of the 3 animals? _____
